

PHISHING

NEW ONLINE TRAINING

This is an e-learning course.
Registration on this course will last 12 months.

£14 + VAT per delegate

Brief Overview:

Phishing is the fraudulent attempt to obtain sensitive information such as usernames, passwords and credit card details by disguising oneself as a trustworthy entity in an electronic communication.

Learning Objectives:

This e learning course includes a range of learning activities to help you understand the dangers of phishing attacks.

By the end of the course you should be able to:

- Understanding the definition and different types of phishing
- Explain why phishing attacks are used and how your digital footprint can be exploited for these attacks and for social engineering purposes
- Examine the rise of cyber crime and why phishing continues to be a key tool and technique for attacks
- Understand the different types of phishing attacks and how the complexity of each one can be completely different
- Know the best way to respond to phishing attacks whether at work or at home

To Book: Complete the standard EALC booking form and send to **pearl.willcox@ealc.gov.uk** who will then register you with Nimble. Once processed you will receive joining instructions and your Council will then be issued with an invoice.
